

AinslieAPI.Controllers.Green  
IdController.NewVerification

AinslieAPI.Controllers.Green  
IdController.testdynamic

AinslieAPI.Services.Internal  
ApiService.UpdateGreenIdDbNetsuiteld

```
graph LR; A[AinslieAPI.Controllers.GreenIdController.NewVerification] --> C[AinslieAPI.Services.InternalApiService.UpdateGreenIdDbNetsuiteld]; B[AinslieAPI.Controllers.GreenIdController.testdynamic] --> C;
```

The diagram illustrates a dependency or call flow. On the left, two white rectangular boxes represent controller methods: 'AinslieAPI.Controllers.GreenIdController.NewVerification' (top) and 'AinslieAPI.Controllers.GreenIdController.testdynamic' (bottom). On the right, a gray rectangular box represents a service method: 'AinslieAPI.Services.InternalApiService.UpdateGreenIdDbNetsuiteld'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both controller methods interact with or call the service method.
