

InternalAPI.Controllers.
LogViewerController.GetTaskAPILogs

InternalAPI.Controllers.
LogsController.GetUnifiedLogs

InternalAPI.Services.Task
APIService.GetLogs

```
graph LR; A[InternalAPI.Controllers.LogViewerController.GetTaskAPILogs] --> C[InternalAPI.Services.TaskAPIService.GetLogs]; B[InternalAPI.Controllers.LogsController.GetUnifiedLogs] --> C;
```

The diagram illustrates two controllers on the left calling a common service method on the right. The top controller, 'LogViewerController.GetTaskAPILogs', and the bottom controller, 'LogsController.GetUnifiedLogs', both have blue arrows pointing to the 'TaskAPIService.GetLogs' method. The service box is shaded gray, while the controller boxes are white with black borders.
